

Meritor Parts

Meritor Parts - Meritor is a premier global supplier which is proudly founded on a one hundred year tradition of quality and service. They concentrate on different integrated systems, modules and parts to original machinery makers and the aftermarket for the industrial and transportation trades.

Meritor values the requirements of their customers to guarantee their success while priding itself in the company's unique energy and feels this output of energy to be their competitive advantage in their worldwide operations. Meritor starts with a philosophy that values diversity of people and their broad thought processes. Operating in 19 countries and hiring more than eleven thousand two hundred people, Meritor promotes collaboration and innovation amongst a team of experienced professionals.

Meritor strongly believes in only hiring future focused employees. These top-caliber people can rapidly get used to to changing environments and freely demonstrate the level of commitment and performance required to attain results for the competitive market environment. The company empowers their teams to make sound business decisions to be able to enhance the overall success of the company. In return, Meritor provides all of their staff various opportunities for personal and professional growth.

The Advanced Engineering team is on the forefront of systems engineering and components. This includes axles, drivelines, suspension and braking systems for medium and heavy duty trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives which represent the entire Asia Pacific region. This particular team is even responsible for supporting the needs of all their international engineering employees.

Meritor's dynamic and customer focused Quality team is committed to ensuring optimum processing at their production plants and aftermarket distribution facilities that are situated all over the world in 19 nations and in 5 different continents.

They have their supplier network which is specially located to be able to support the growth of the business. Each regional team has internationally supported quality systems, initiatives and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making within each aspect of the business. The DFSS or Design for Six Sigma ensures product reliability in each and every region. The team is likewise comprised of transactional Green Belts who use Six Sigma tools to business methods and apply lean methods.
