

## TCM Forklift Parts

TCM Forklift Part - Forklift trucks are a major player in the material handling field of each and every global business. Transporting industrial goods takes place every day on our hectic planet. Originally innovated as industrial vehicles in the 1930s in the U.S., lift trucks gained popularity after World War II in the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these machines spread internationally.

Initially established as Toyo Carrier Manufacturing Company Limited, in 1949, the company was later renamed Toyo Umpanki Co. previous to becoming recognized as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's very first forklift. Over the years, TCM forklifts have become an international leader in lift truck manufacturing and have built a solid reputation with the business. TCM began building lift truck manufacturing sites outside of Japan during the 1980s and is presently engaged in lift truck manufacturer at three foreign factories in China, the United States and Europe.

TCM proudly makes many models of industrial trucks with more than 50 years of accumulated technology and expertise, making their products used and recognized all over the world. Characterized by strong initiatives and energetic staff, TCM continues to look toward the future and aims to become a world-class leading company.
