

Rockwell Parts

Rockwell Part - AxleTech International is a leading dealer in the world of specialty vehicle drive-train systems and components along with off highway vehicles. The business prides itself on being its clients' chosen supplier. AxleTech strives to exceed and meet their customers' expectations for service, technology, delivery and quality. They believe in working in an environment which encourages the utmost integrity with empowered collaboration, combined with a unyielding pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great importance on being an environmentally conscious company and offering a safe environment for their workers to work in. In addition, they have implemented numerous programs within the organization to be able to help articulate these values in their business policy. AxleTech happily shares this policy and welcomes interested parties to offer them with whatever questions or comments, because they are glad to share and promote this policy with a greater understanding of their efforts. They are extremely dedicated to improving and preserving the environment. AxleTech has an EHS program that not just protects the natural environment but which also actively protects their workers and neighbors too.

AxleTech specializes in the designing and manufacture of planetary axles used for both commercial and military applications, which could consist of anything from construction equipment to airport ground support. They take great pride in being an innovative drive-train solutions provider as well. AxleTech specially designs axles to meet specific application demands. They have more than one thousand different axle specs in their existing offering. With over one hundred years of history and knowledge, AxleTech proudly supplies the most complete solution for whichever of your axle needs. The business is well known in various commercial and military applications. They provide complete axle assemblies used for aftermarket replacement needs, together with servicing axle requirements for OE production. Their high mobility ISAS have further details that can be found in the "ISAS" product selection.
