

Forklift Spreader Bars

Spreader Bar for Forklifts - ELME has been proudly operating since nineteen seventy four, becoming the biggest independent spreader producer around the globe. They are a devoted manufacturer of spreaders for a lot of several applications like for example the trailers, handling of containers and swap bodies.

ELME currently employs more than a hundred and twenty five employees with all engineering is done in-house by means of making use of all the newest CAD systems and FEM tools. Their spreaders are supplied to reach quayside, ship-to-shore cranes, stackers, straddle carriers, lift trucks and gantry across the globe.

The product series of ELME comprise lots of spreaders designed for a variety of trailer and container handling operations. Some of their inventory consist of: Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail Mounted and Rubber Tired Gantry Cranes as well as a wide array of attachments.

Production and manufacturing of ELME products are developed in highly automated purpose designed factory. In the year 2008, they made 1150 spreaders by means of using quality components in order to guarantee dependability and excellent standards. Major characteristics of ELME comprise design simplicity, market reaction and ground-breaking modular spreader concept.
